

PIMAG™ DELUXE UNDER COUNTER WATER SYSTEM

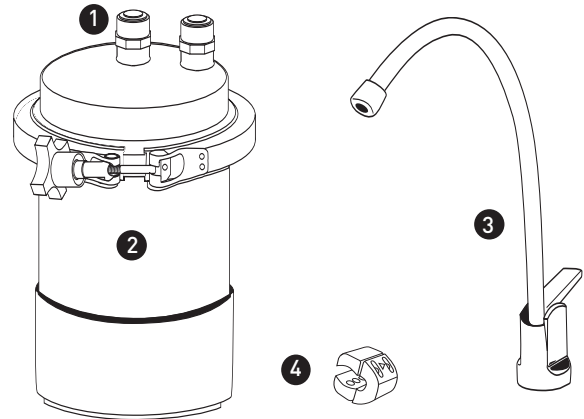

QUICK REFERENCE SHEET

- Provides top-of-the-line filtration of a wide range of water contaminants
- Combines filtration and Nikken PiMag Water Technology
- Connects to plumbing to provide PiMag water instantly, on demand
- Mineral elements produce pi water, “the water of life”
- Under-sink design requires no counter space
- Includes attractive, durable chrome faucet
- Multiple filters and pi technology in single cartridge for convenience
- LED indicator takes the guesswork out of filter replacement

PiMag Deluxe Under Counter Water System operation

- 1 Intake tube attaches directly to plumbing
- 2 Water flows through multiple filters and pi materials
- 3 Filtered PiMag water provided by elegant high-arch faucet
- 4 Magna-Charger provides a magnetic field

PIMAG DELUXE FEATURES/BENEFITS:

- **Advanced, superior filtration technology** Reduces a range of contaminants widely found in municipal water systems.*
- **Instant PiMag water right at the sink.** No waiting — turn on the tap for a fresh, practically unlimited supply.
- **Operates using ordinary water pressure** Requires no electrical plug-in.
- **Primary and secondary prefilter technology** . . Traps large materials, prevents clogging.
- **Activated carbon filter.** Simple, natural form of filtration to adsorb fine particles.
- **Pi ceramic material** Reproduces conditions for creating pi water.
- **Magnetic technology** Adds the magnetic component to reduce clusters and mineral clumping.

* Nikken has no information on water quality regarding the water supply in your area.

PIMAG™ DELUXE UNDER COUNTER WATER SYSTEM

QUICK REFERENCE SHEET

THE FACTS

- Advanced, multistage filtration technology in the PiMag Deluxe Under Counter Water System provides a defense against the broadest range of tap water contaminants and substances common to municipal water supplies. It offers an exceptional level of performance in the reduction of volatile organic compounds, lead, cysts, MTBE, turbidity, chlorine, bad tastes, odors and particulate matter.*
- The compound filtration system is extremely efficient — in NSF testing, on more than 30 contaminant levels measured the reduction rate is greater than 90%!
- The PiMag Deluxe Under Counter Water System offers the convenience of clear, sparkling PiMag water right from the faucet, and because it filters water directly from the household plumbing, the PiMag Water System provides a practically unlimited supply, at any time — all it requires is periodic filter replacement.
- Nikken PiMag Water Technology is superior to other technologies that require the use of chemicals or salt.
- A Nikken exclusive, PiMag Water Technology uses ceramics to produce pi water — the “water of life.” Pi water was first discovered in a remote region of Japan, where scientists observed amazing results on the surrounding plants. Nikken technology uses special materials to replicate the environmental conditions that create pi water.
- Nearly half of Americans surveyed say they do not wish to drink tap water. A popular alternative is the purchase of expensive bottled water — but many of these products are nothing more than bottled tap water, filtered and marked up in price.
- The PiMag Deluxe Under Counter Water System is more practical than bottled water. It eliminates the need to struggle with heavy water bottles, or large numbers of personal-size bottles (which also contribute to landfill waste).
- The system features an attractive faucet with a convenient three-position lever — off, spring-closing and full flow settings.

System Tested and Certified by NSF International against NSF/ANSI Standard 42 for the reduction of Chlorine, Taste and Odor, and Particulate Class I and NSF/ANSI Standard 53 for Cysts, Lead, VOC, Turbidity and MTBE.

PRODUCT INFORMATION

ITEM CODE	DESCRIPTION	SUGGESTED US RETAIL	SUGGESTED CN RETAIL
#13151	PiMag Deluxe Under Counter Water System	\$774.00	\$890.00
#13152	PiMag Deluxe replacement filter cartridge	\$94.00	\$108.00
AVAILABILITY			
US: YES CN: YES			
FEATURED NIKKEN TECHNOLOGY			
PiMag Water Technology: mesh and carbon filters, pi ceramics, ring magnet			
WEIGHT			
9 lbs/4 kg			
MATERIALS CONTAINED IN PRODUCT			
Poly mesh, block carbon, pi ceramics			
HOW TO USE			
Connect fittings to sink cold water supply			
FILTER REPLACEMENT			
Replace filters after every 12 months, or when filter indicator specifies replacement, whichever comes first.			
WARRANTY INFORMATION			
90-day standard limited warranty			

QUICK SHARING TIPS

Offer a drink of PiMag water to someone who has not yet tried it. PiMag water is not only “the water of life,” it tastes delicious.

Purchasing and using the PiMag Deluxe Countertop Water System for five years results in an expense of less than 50¢ per gallon of water. Compare the cost for the same amount of commercially bottled water. The averaged retail price of popular bottled water products, based on a national price survey, equals \$2-\$5 per gallon. Over five years, the cost of PiMag water (including the purchase of the unit) is thousands of dollars less than bottled products.

CAUTION: The contaminants or other substances removed or reduced by this water treatment device are not necessarily in your water. Use only on municipally treated water or other supply known to be safe for drinking. If you use an electronic medical device such as a pacemaker, or have a magnetically sensitive surgical implant, do not use or wear magnetic products. Women in the first trimester of pregnancy, or anyone who has a health problem should first consult a physician before using magnetic products. Do not place magnetic products in direct contact with magnetically sensitive items such as watches, audio/video tapes, credit cards, portable electronic equipment, etc.
