

QUICK REFERENCE SHEET

- A combination of features not found in other auto air filters
- Four-stage advanced filtration
- Negative ion generator
- Ozone-free technology
- Selectable aromatherapy
- Automatic filter replacement indicator
- Automatic operation or selectable power level
- Can use 12-volt (car) and 110-volt (home) power

Air Wellness Traveler features and benefits:

- *Multistage filtration* Reduces many types of contaminants, particles.
- *Negative ion generator* Produces negative ions, like those in forests and near waterfalls.
- *Ozone-free operation* Patent-pending technology that does not create ozone, a toxic gas.
- *Aromatherapy option* Uses aroma to influence mood or emotion, to reduce stress, relax or stimulate.
- *Low noise level* Virtually inaudible in a car.
- *Filter replacement panel light* Automatic indicator shows when filter needs replacement.
- *Dust sensor* Detects dust level automatically, to begin operation in automatic mode.
- *Operates on auto or house current* Goes anywhere, from car to home or office.

QUICK REFERENCE SHEET

The facts

- Exposure to air pollution in a car is a twofold problem. Outside the car are high levels of particulates. The interior can contain the same types of pollutants found in homes. Passengers may be exposed to a variety of contaminants from inside and outside. The interior is also a confined space, so occupants may be subject to higher levels or repeated exposure.
- The Air Wellness Traveler features technologies that help to provide cleaner, fresher, invigorating air, reducing a wide range of pollutants and using technologies inspired by nature.
- The system includes a prefilter, a dust/deodorizing filter and porous metal (copper) filter. Photocatalytic action destroys pollutants.
- In Japan, a walk through a forest or by a mountain stream (where high amounts of negative ions are present) is regarded as relaxing and energizing and which the Japanese call shinrin-yoku, "forest-air breathing."
- Air conditioning tends to reduce or remove negative ions from the air. The Traveler can help to correct the balance.
- The Traveler features clean ion generation. This unique technology operates without producing ozone. Ozone is classified by the United States Environmental Protection Agency as a toxic gas.
- Aromas are known to lead to reactions such as mood changes. Scents can make us recall distant memories, vividly and immediately. The sense of smell is a physical link to our emotional state.
- A mobile air system is versatile, for use in the car, office or almost anywhere.

PRODUCT INFORMATION

ITEM CODE	DESCRIPTION	SUGGESTED US RETAIL	SUGGESTED CN RETAIL
#1396	Air Wellness Traveler mobile air system	\$311.00	\$358.00
#13965	Air Wellness Traveler replacement filter	\$45.00	\$51.00
AVAILABILITY			
US: YES	CN: YES		
FEATURED NIKKEN TECHNOLOGY			
Four-stage filtration, ozone-free clean ion generation, copper photocatalytic filtration, aromatherapy, energy-efficient technology.			
AREA COVERAGE			
172 sq ft/16 m ² (approximate)			
POWER CONSUMPTION			
6 watts			
DIMENSIONS			
10.6 x 4.7 x 4.1 inches/27 x 12 x 10.5 cm			
WEIGHT			
2 lbs / 0.9 kg			
HOW TO USE			
The Air Wellness Traveler may be set to operate on automatic mode or manually controlled.			
FILTER REPLACEMENT			
Six months			
WARRANTY INFORMATION			
One-year limited warranty			

Quick Sharing Tips

- People are spending more time in their cars than ever. Commuting now consumes a large portion of the day for adults. Children are driven to school or play instead of bicycling or riding a bus. More time in the family car means that clean air inside is more important.
- The Air Wellness Traveler goes from car to home or office with the included AC adapter/connector.
