

## QUICK REFERENCE SHEET

- Simple operation, advanced technology
- Designed for use with a water cooler or hot/cold dispenser
- Filtration that works naturally by gravity flow
- Ionized minerals help regulate acid/alkaline (pH) balance
- Mineral elements produce pi water, "the water of life"
- Nikken Magnetic Technology

### PiMag Aqua Pour Deluxe operation

- 1 Water is poured into the top (filler) tank.
- 2 Gravity directs the water flow through multiple levels of filtration, plus pi ceramics and magnetic field.

### Aqua Pour Deluxe features and benefits:

- *Freestanding design* . . . . . Requires no counter space, designed for use with dispenser.
- *Gravity flow operation* . . . . . Requires no plumbing.
- *Microsponge prefilter* . . . . . Reduces particulates.
- *Ceramic prefilter* . . . . . Provides more intensive filtration, for areas with high sediment or rust content.
- *Activated carbon filter* . . . . . Simple, natural form of adsorption filtering.
- *Zeolite filter material* . . . . . Provides exceptional filtration quality.
- *Pi ceramic material* . . . . . Reproduces conditions for creating pi water.
- *Mineral stones* . . . . . Naturally alkaline, to filter and help regulate water pH.
- *Magnetic technology* . . . . . Adds the magnetic component to produce PiMag water.

## QUICK REFERENCE SHEET

### The facts

- Used with a standard water cooler or hot/cold dispenser, the Aqua Pour Deluxe provides PiMag water for a wide range of uses — for making hot drinks, in cooking, or directly from the cold tap with no ice cubes or refrigeration needed.
- The small footprint and freestanding design of the Aqua Pour Deluxe allow it to be placed almost anywhere — a small kitchen, office, bedroom or spare room.
- Nikken PiMag Water Technology is superior to other technologies that require the use of chemicals or salt.
- PiMag water is an exceptional source of what your body needs. It can help restore the balance of fluids that plants, animals — and human beings — are composed of internally.
- PiMag water is also less acidic than some tap water. Less-acidic water is more in harmony with your natural fluids.
- The technology in the PiMag Aqua Pour Deluxe is based on natural forces. The system uses gravity and the natural properties of water.
- The PiMag Aqua Pour Deluxe is more practical than bottled water. Because it uses a top-filled, gravity-flow system, the Aqua Pour Deluxe eliminates the need to struggle with heavy water bottles.
- Commercially bottled water is expensive — PiMag water costs a fraction of the price. And with bottled water, the quality can vary depending on where or when it was bottled. The PiMag Aqua Pour Deluxe provides consistent quality.
- Most importantly, with the PiMag Aqua Pour Deluxe you get more than water — you get PiMag water.

### Quick Sharing Tips

- Offer a drink of water from the PiMag Aqua Pour Deluxe. PiMag water is not only “the water of life,” it tastes delicious.
- Because the Aqua Pour Deluxe works without plumbing, it can be used almost anywhere. It is a good backup system to have, for producing a supply of PiMag water.

The contaminants or other substances removed or reduced by this water treatment device are not necessarily in your water. Use only on municipally treated water or other supply known to be safe for drinking.

**CAUTION:** Fill with cold water only. This product contains silver used to inhibit the growth of bacteria in the filter to prolong the life of the filter. Silver has a low toxicity to humans but is highly toxic to fish and other aquatic life. This product is designed to remove objectionable tastes, odors, and colors from municipally treated tap water.

If you use an electronic medical device such as a pacemaker, or have a magnetically sensitive surgical implant, do not use or wear magnetic products. Women in the first trimester of pregnancy, or anyone who has a health problem should first consult a physician before using magnetic products. Do not place magnetic products in direct contact with magnetically sensitive items such as watches, audio/video tapes, credit cards, portable electronic equipment, etc.
