## Kenzen Wellness

### The Nikken Nutrition Philosophy

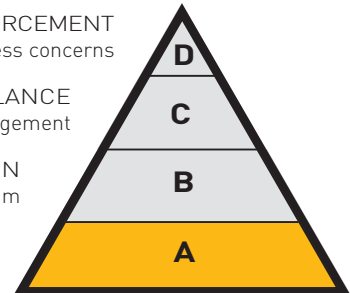

Hippocrates, the father of medical science, said, "Let food be your medicine." Nikken Kenzen Wellness nutrition is based on the principle that natural, whole foods are the ideal source of the nutrients your body was designed to consume. They are "living foods" in the sense that healthy, natural nutrition supports normal physical function, contributes fuel for energy, and helps the body defend itself against illness, aging and environmental challenge.

# KENZEN™ CIAGA™

## QUICK REFERENCE SHEET

### THE FACTS

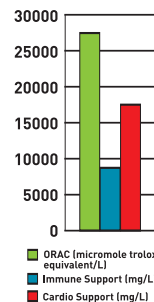

- Many fruit juice or juice extract drinks contain an ingredient or two that promises to provide healthy nutrients and antioxidant protection. Ciaga is the only juice blend that combines a broad spectrum of ingredients. This creates synergy — the health benefits are greatly increased.\*
- Some fruits are recognized as exceptionally high in nutrient and antioxidant value. Many health drinks contain one of these ingredients. Ciaga is better, because it offers a wide range of them.
- Ciaga is a blend of noni, pomegranate, aloe vera, goji berry, cherry, blueberry, grape, pear and more. In all there are 21 whole fruit, herb and organic extracts. The result is a super-antioxidant juice drink with great taste and superior nutritional levels.
- Scientists studying diet and wellness are discovering that certain food combinations can deliver a significant nutritional advantage. A report from the U.S. National Library of Medicine says: "The health benefits of fruits and vegetables are from additive and synergistic combinations of phytochemicals." This synergy is the basis for the Ciaga formula.
- Ciaga offers antioxidant levels far higher than other juice or health drinks that promote their antioxidant value. It also features a unique mix of ingredients for cardiovascular and immune system support.\* Known as the Antioxidant/CI blend, this is in no other juice product.
- The fresh, natural foods in Ciaga are harvested at the peak of their growth cycle and processed to retain all of their natural essence.
- No pesticides, herbicides, artificial fertilizers or genetically modified organisms are used in growing or processing. Ciaga contains no preservatives.
- The organic, all-natural nutrients are readily recognized and metabolized by the human body, for maximum absorption and nutritional benefit.\*
- Unlike products that may be up to 80 percent water, Ciaga contains natural juices with no water added.
