Organic essences of these rare plants are refined and blended to create True Elements, a complete line of high performance products that form a comprehensive skin care regimen. THE FACTS

- True Elements Contour Serum helps combat the effects of time and gravity with a gentle lifting and firming look. It immediately decreases the visible appearance of fine lines and wrinkles, leaving skin smoother and feeling softer.
- An optimized blend of two ingredients, hydrolyzed polysaccharide and acacia gum, act as the firming agent. These are complemented by natural olive, macadamia and jojoba oils to nourish and help prevent moisture loss. Organic aloe vera adds a soothing effect.
- Sun, wind, airborne pollutants, free radicals and advancing years all can accelerate a prematurely aged look. Nikken True Elements is a system of professional-quality care that delivers results in several ways — gentle cleansing, help in balancing skin pH, replenishment of lost moisture and nourishment.
- The complete True Elements skin care line consists of unique formulations based on natural source materials. Only top-quality ingredients from European suppliers are used.
- The plant extracts in True Elements products are certified by Ecocert, a control and certification organization qualified by the French Committee for Accreditation.
- In Ecocert certified skin care products, at least 95% of the ingredients must be natural or of natural origin. The Ecocert seal is a guarantee that these products contain:
