

QUICK REFERENCE SHEET

- *Insoles with Nikken EQL Magnetic Technology*
- *Textured surface for foot massage*
- *Durable, reinforced construction, comfort design*
- *Flexible and lightweight for movement*
- *For dress and casual shoes*

Magsteps®

- 1** Nikken EQL Magnetic technology
- 2** Reinforcing mesh layers
- 3** Wear-resistant outer coating

Magsteps features and benefits:

- *EQL Magnetic Technology* Perfectly consistent magnetic field formed of equilateral triangles, with multiple polarity.
- *Complete magnetic coverage* Magnetic over 100% of the surface, no gaps.
- *Strategically shaped and placed nodules* Provide a foot massage effect that helps the whole body feel good.
- *Flexible, resilient construction* Allows freedom of movement.
- *Reinforcing mesh layers, wear-resistant coating* Adds durability, long life.
- *Low-profile design* Comfortable inside shoes.
- *Three trim-to-fit sizes* For a custom fit.

QUICK REFERENCE SHEET

The facts

- Magsteps — the original Nikken product — were introduced in 1975, and represent the first magnetic insole. Since then, other magnetic insoles have appeared, but none offer the combination of features that are built into Magsteps' unique design.
- Magsteps benefit from EQL Magnetic Technology, a Nikken exclusive. Insoles that use concentric-circle or linear magnetic designs have gaps in their magnetic field coverage, or a sharply limited number of magnetic poles at the surface. Only Nikken can provide complete coverage and consistency.
- The nodules on the upper surface of Magsteps were inspired by the pebbles found on the floor of Japanese communal baths. For centuries, the Japanese have used these baths to relax and reduce stress, as the pebbly bottom provides a soothing foot massage.
- Tired, sore feet are often the first sign of fatigue that can spread throughout the body. Foot comfort can help to relax and promote a feeling of renewed energy all over.
- Magsteps are like a portable foot massage. Placed inside shoes, Magsteps can provide the benefits of a passive massage effect not just for a few minutes but all day — walking, standing, sitting.
- Magsteps are a high-quality product in every part of their construction. They are made to last, with a triple-layer design and surface coating that stands up to constant wear. The durable coating also wipes clean to help prevent odor buildup.
- Magsteps are available in sizes to fit men, women and children. They are easily trimmed with scissors for a perfect fit.

Try Magstrides™ and Kidstrides™, too!

Magstrides and Kidstrides feature the same EQL Magnetic Technology and are designed for use in any activity and with any sport shoe. With Nikken Far-Infrared Technology, rugged, ventilated Magstrides are cushioned with high-density foam for active comfort.

PRODUCT INFORMATION

ITEM CODE	DESCRIPTION	SUGGESTED US RETAIL	SUGGESTED CN RETAIL
#2020	Magsteps® - SM sizes 5-9	\$60.00	\$69.00
#2021	Magsteps® - MED sizes 7-12	\$60.00	\$69.00
#2022	Magsteps® - LG sizes 13-18	\$70.00	\$80.00
DESCRIPTION			
Magsteps insoles			
AVAILABILITY			
US: YES CN: YES			
FEATURED NIKKEN TECHNOLOGY			
EQL Magnetic Technology, massage nodules, shock-absorbing surface			
WEIGHT			
0.40-0.85 lb/181-386 g			
MATERIALS CONTAINED IN PRODUCT			
Magnetic, heat resistant nylon.			
HOW TO USE			
Trim to fit if necessary. Insert into shoes.			
CARE INSTRUCTIONS			
Surface clean with a damp cloth moistened with a mild detergent or hand wash in warm water with a mild detergent. Air dry.			
WARRANTY INFORMATION			
90-day standard limited warranty			

Quick Sharing Tip

Magsteps are the original magnetic insole but their introduction was only the beginning of magnetic wellness technology. Magsteps are constantly improved to benefit from the latest advances in engineering and design, resulting in a superior, quality product ahead of anything else on the market.

CAUTION: If you use an electronic medical device such as a pacemaker, or have a magnetically sensitive surgical implant, do not use or wear magnetic products. Women in the first trimester of pregnancy, or anyone with a health problem should first consult a physician before using magnetic products. Do not place magnetic products in direct contact with magnetically sensitive items such as watches, audio/video tapes, credit cards, portable electronic equipment, etc. When cutting insoles to fit, trim carefully and remove sharp edges or projections. If discomfort or irritation occurs, discontinue use and consult your medical professional.
