

QUICK REFERENCE SHEET

- Insoles with Nikken EQL Magnetic Technology
- Complete, consistent magnetic coverage
- Far-Infrared Technology reflects far-infrared energy
- Durable, reinforced construction
- Shock-absorbing, comfort cushion
- Ventilated, odor-resistant
- For active wear in any shoes

Magstrides/Kidstrides features and benefits:

- *EQL Magnetic Technology* Perfectly consistent magnetic field formed of equilateral triangles, with multiple polarity.
- *Complete magnetic coverage* Magnetic over 100% of the surface, no gaps.
- *Far-Infrared Technology* Ceramic-reflective fibers for far-infrared energy, temperature control.
- *High-density foam cushion layer* Shock absorption for high-impact sports or exercising.
- *Rugged, ventilated construction* Withstands active wear, helps protect against odor buildup.
- *Highly flexible* Allows freedom of movement during activity.
- *Adult and child trim-to-fit sizes* A custom fit for all ages.

QUICK REFERENCE SHEET

The Facts

- Following the success of Magsteps — the original Nikken magnetic insole — Magstrides and Kidstrides take the same principle and apply it to active wear. The addition of Far-Infrared Technology and extra cushioning make Magstrides and Kidstrides ideal for a wide range of activities.
- Magstrides and Kidstrides benefit from EQL Magnetic Technology, a Nikken exclusive. Insoles that use concentric-circle or linear magnetic designs have gaps in their magnetic field coverage, or a sharply limited number of magnetic poles at the surface. Only Nikken can provide complete coverage and consistency.
- The Far-Infrared Technology in Magstrides and Kidstrides consists of fibers made from a ceramic material, that absorb energy and then reflect it as far-infrared waves. The long waves of far-infrared energy are more penetrating than shorter wavelengths. The ceramic fibers are permanently infused in the insole.
- The high-density, soft urethane foam layer in Magstrides and Kidstrides helps protect against shock in high-impact exercise such as running or aerobics. It also provides superior comfort in low-impact exercise including walking, golf or cycling.
- Tired, sore feet are often the first sign of fatigue that can spread throughout the body. Foot comfort during periods of high activity can help prevent sore feet and promote a feeling of renewed energy all over.
- Magstrides and Kidstrides are high-quality products in every part of their construction. They are made to last, with a triple-layer design and surface coating that stands up to constant wear. The durable coating also wipes clean to help prevent odor buildup.
- These active insoles are available in sizes to fit men, women and children. They are easily trimmed with scissors for a perfect fit.

Try Magsteps®, too!

Magsteps, the original magnetic insole, feature the same EQL Magnetic Technology as Magstrides. Magsteps include a textured surface with nodules that provide a relaxing, energizing massage effect while walking or standing. For tired feet, Magsteps provide the feel of a soothing massage all day long.

PRODUCT INFORMATION

ITEM CODE	DESCRIPTION	SUGGESTED US RETAIL	SUGGESTED CN RETAIL
#2024	Magstrides™ – SM sizes 5-9	\$64.00	\$74.00
#2025	Magstrides™ – MED sizes 7-12	\$64.00	\$74.00
#2026	Magstrides™ – LG sizes 13-18	\$80.00	\$93.00
#2010	Kidstrides™ – Child 9 - Youth 3	\$37.00	\$43.00
AVAILABILITY			
US: YES CN: YES			
FEATURED NIKKEN TECHNOLOGY			
EQL Magnetic Technology, Far-Infrared Technology, shock-absorbing surface			
WEIGHT			
0.45-0.65 lb/204-386 g			
MATERIALS CONTAINED IN PRODUCT			
Magnetic, urethane foam, ceramic-reflective fibers			
HOW TO USE			
Trim to fit if necessary. Insert into shoes.			
CARE INSTRUCTIONS			
Surface clean with a damp cloth moistened with a mild detergent or hand wash in warm water with a mild detergent. Air dry.			
WARRANTY INFORMATION			
90-day standard limited warranty.			

Quick Sharing Tip

Magstrides and Kidstrides provide complete magnetic coverage and Far-Infrared Technology with the benefits of sports cushioning, for wear with practically any shoes. The design and engineering of Magstrides and Kidstrides are constantly improved to benefit from the latest advances in technology, resulting in a superior, quality product ahead of anything else on the market.

CAUTION: If you use an electronic medical device such as a pacemaker, or have a magnetically sensitive surgical implant, do not use or wear magnetic products. Women in the first trimester of pregnancy, or anyone with a health problem should first consult a physician before using magnetic products. Do not place magnetic products in direct contact with magnetically sensitive items such as watches, audio/video tapes, credit cards, portable electronic equipment, etc. When cutting insoles to fit, trim carefully and remove sharp edges or projections. If discomfort or irritation occurs, discontinue use and consult your medical professional.
