True Elements Skincare

True Elements Swiss Organic Skin Care takes its inspiration from the flowers, vines and herbs that grow in the Valaisan Mountains of the Swiss Alps. Subjected to extremes of temperature and humidity over the course of centuries, these extraordinary plant strains have developed an unusual resistance to the effects of environmental stress.

Organic essences of these rare plants are refined and blended to create True Elements, a complete line of high performance products that form a comprehensive skin care regimen. These unique formulations help safeguard skin from the challenges of weather and aging, for a more youthful, radiant looking complexion.

EXFOLIATING MASQUE FEATURES/BENEFITS:

- **Gentle exfoliation** Removes dead cell layer without chemical peeling or burning.
- **Fine-textured granular suspension** Not a harsh abrasive, mildly stimulating for a fresh feeling.
- **Organic olive, macadamia and jojoba oils** Helps skin retain moisture that other exfoliants may remove.
- **Organic shea butter and aloe vera** Provides a soothing, relaxing effect.
- **Includes imperatoria, artemisia and marrubium** . . . Swiss plant varieties that help support healthy skin.
- **Part of a comprehensive skin care program** For a wide range of skin types, can be adapted for individual needs.
- **Ecocert certified** Guarantee of organic materials, produced under ecologically sustainable conditions.

THE FACTS

- True Elements Exfoliating Masque is a light, delicate cream application that gently exfoliates skin to remove the dead cell layer and expose living, clear skin for a radiant appearance.
- This mask features a fine suspension of organic apricot-stone granules, which exfoliates with a gentle mechanical action. This is superior to a harsh chemical peel, which can cause irritation.
- Olive, macadamia and jojoba oils in the Exfoliating Masque help to moisturize and protect skin from drying out. Shea butter and aloe vera are added to help soften and soothe the skin.
- Masterwort (imperatoria), horehound (marrubium) and Alp wormwood (artemisia) are species that grow in the Valaisan mountains of the Swiss Alps. These rare plant strains have been subjected to extremes of temperature and humidity over the course of centuries. Essences of these rare plants are refined and blended to create True Elements skincare.
- Sun, wind, airborne pollutants, free radicals and advancing years all can accelerate a prematurely aged look. Nikken True Elements is a system of professional-quality care that delivers results in several ways — gentle cleansing, help in balancing skin pH, replenishment of lost moisture and nourishment.
- The complete True Elements skin care line consists of unique formulations based on natural source materials. Only top-quality ingredients from European suppliers are used.
- The plant extracts in True Elements products are certified by Ecocert, a control and certification organization qualified by the French Committee for Accreditation.
- In Ecocert certified skin care products, at least 95% of the ingredients must be natural or of natural origin. The Ecocert seal is a guarantee that these products contain:
 - No mineral oil or silicon
 - No emulsifiers that include PEG
 - No viscosity-controlling agents such as carbomer
 - No preservatives that include phenoxyethanols or parabens
 - No synthetic dyes, colors or perfumes
 - No solvents that include propylene glycol

QUICK SHARING TIPS

True Elements Exfoliating Masque is a gentle yet effective means of reducing the skin's inert cell layer to reveal a fresh, radiant complexion. It uses the massaging effect of granular material instead of a chemical exfoliant — a more natural approach.
