

QUICK REFERENCE SHEET

- Optimizes PiMag water using natural processes
- Magnetic technology inspired by thunderstorms
- Pi and oxygenation technology that works like a mountain stream
- Minerals help to modify pH balance

PiMag Optimizer II

- 1 The Optimizer's powerful electric motor causes a pair of 4,400 gauss magnets to revolve, producing a strong, complex magnetic field.
- 2 A rotor inside the Optimizer II pitcher — controlled by a 3,500 gauss magnet — passes the water in the pitcher through this magnetic field many times.
- 3 Water flows through the Optimizer's pi ring, containing pi ceramic material.
- 4 The Optimizer II agitates the water in a vortex (cyclone) pattern, packing oxygen into the water while it is cycled through the magnetic field.

Optimizer II features and benefits:

- *Revolving magnets* Create an active field of magnetic energy
- *Pi Ring* Adjusts pH, enhances mineral composition, and adds pi.
- *New, larger water pitcher with closeable spout* Gives the Optimizer II a full two-liter capacity, keeps optimized water that's ready to drink.
- *Ergonomic layout* Makes the Optimizer II easy to use and requires less counter space, to fit easily even in a small area.
- *Digital readout panel* Features an elapsed-time indicator that lets the user determine when to replace the Pi Ring, for best performance.

QUICK REFERENCE SHEET

The facts

- Optimizer technology is designed to adjust pH, enhance mineral composition, add ions and add pi.
- The Pi Ring contains sea coral harvested from a region near Okinawa.
- The cocoon of magnetism in the Optimizer is similar to the effect in the Nikken Sleep System, but this is an active field of high energy.
- The combination of oxygenating activity, pi minerals and magnetic field is designed to re-create the conditions in the field where pi water was discovered — “the water of life.”
- Used with your PiMag Water System, the PiMag Optimizer II is designed to transform PiMag water through patented technology.
- The PiMag Optimizer was developed in consultation with leading experts in water science. Research and the Nikken quest for perfect water led to the development of the PiMag Optimizer II.

CAUTION: If you use an electronic medical device such as a pacemaker, or have a magnetically sensitive surgical implant, do not use or wear magnetic products. Women in the first trimester of pregnancy or anyone who has a health problem should first consult a physician before using magnetic products. Do not place magnetic products in direct contact with magnetically sensitive items such as watches, audio/video tapes, credit cards, portable electronic equipment, etc. Use only on municipally treated water or other supply known to be safe for drinking.

PRODUCT INFORMATION

ITEM CODE	DESCRIPTION	SUGGESTED US RETAIL	SUGGESTED CN RETAIL
#1359	PiMag Optimizer II	\$499.00	\$574.00
#1358	PiMag Optimizer II Pi Ring - Replacement*	\$60.00	\$69.00
#1357	PiMag Optimizer II Pitcher - Replacement*	\$30.00	\$35.00
AVAILABILITY			
US: YES CN: YES			
FEATURED NIKKEN TECHNOLOGY			
Advanced Magnetic Technology, PiMag Technology, Oxygenation Technology			
WEIGHTS			
4.6 lb/2.1 kg			
CAPACITY			
2 liters			
MATERIALS CONTAINED IN PRODUCT			
Electric motor, revolving magnets, ring filled with pi ceramic material.			
CLEANING INSTRUCTIONS			
Hand wash pitcher with mild detergent. Do not use soap or detergent with pi ring. Do not immerse base in water. Dry with soft cloth.			
HOW TO USE			
Fill container with water, preferably PiMag water. Optimizes in nine-minute cycle. See complete instructions.			
PI RING REPLACEMENT			
Once a year or after 200 hours, whichever comes first.			
WARRANTY INFORMATION			
90-day standard limited warranty			

Quick Sharing Tip

Ask someone to take a simple taste test with three sips — one of tap water, one of tap water that has gone through the PiMag Water System, and one of PiMag water that has been optimized.
